

DOCKER CLI INSTALLATION

A screenshot of a Windows terminal window with a black background and white text. The window title bar at the top reads "MINGW64/c/Users/Riyazur-Razak". The terminal shows a user prompt "Riyazur Razak@LAPTOP-6KU7KQHB MINGW64 ~ (master)" followed by the command "\$ docker -v". The output is "Docker version 20.10.12, build e91ed57". The prompt then changes to "Riyazur Razak@LAPTOP-6KU7KQHB MINGW64 ~ (master)" and a new line with a prompt "\$" and a cursor is shown.

```
MINGW64/c/Users/Riyazur-Razak

Riyazur Razak@LAPTOP-6KU7KQHB MINGW64 ~ (master)
$ docker -v
Docker version 20.10.12, build e91ed57

Riyazur Razak@LAPTOP-6KU7KQHB MINGW64 ~ (master)
$
```
